

United Soccer Academy College Program

USA and Ethos Recruiting have partnered up to provide our players and their families the necessary knowledge and resources to successfully pursue collegiate soccer.

Players looking to take their game to the next level (college) will be able to tap into some (or all- depending on the package) of the resources of world-renowned recruiting company Ethos Recruiting, as part of what our club offers. Ethos (www.ethosrecruiting.com) has procured over \$65 million in scholarships for their clients through personal relationships with over 1,200 universities.

While some clubs offer little to help players that are interested in playing in college, others demand in our opinion an unjustifiably high level of time- and financial commitment. We therefore offer a balanced, customized, and proven program which consists of:

The Basic Placement Package (All USA families, fees are \$100.00, one-time fee)

- Three invaluable college info seminars per year presented by Ethos Recruiting. First seminar planned for Sept 10th.
- A 15 minute Personalized College Intro Meeting per family with Ethos Recruiting to identify players' options and design specific pathways.

The Complete Placement Package

USA players that have decided they want to play in college are able to purchase this package for a one-time, heavily discounted \$3,500 instead of the usual fee of \$5,000 (visit www.ethosrecruiting.com).
